

Tony Mather, Junior Co-ordinator

Tony is now 32 years old but you can barely tell because of his boyish good looks! Often referred to as the best dressed golfer at Houghwood, his pink shoes and loud pants sum up his character.

Tony is an extremely keen golfer who absolutely loves the game and his golf club.

Houghwood was his first golf club joining prior to 1997 before attending the university of Sunderland and rejoining on his return.

He studied business law at university and walked away with a BA (Hons) degree followed by a Masters in the subject. He currently owns a plant hire company in the north west.

You will not find Tony's name on any honours board in the club, although not through lack of trying. He has won three monthly medals and had many 2nd/3rds in major competition which all live in a very small trophy cabinet.

That said he does maintain a single figure handicap and has represented the club in the Jubilee Matchplay, Jubilee Teams and Mixed Manchester Alliance Competition.

Tony has been on the Competitions Committee for 5 years to represent the younger members of the club. He took control of the junior section just short of three years ago and that is his passion. Tony has said there is nothing more satisfying than seeing youngsters grow and develop into fine golfers.

'I love the job!!'
